***Quayle Action***

1. This application is in condition for allowance except for the following formal matters.

***Drawings***

2. The drawings are objected to because reference character “1k” adjacent charger 2c, developing unit 3c and brush 15c, should be changed to “1c”. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: 15ym. Corrected drawing sheets, or amendment to the specification to add the reference character(s) in the

Art Unit: 2852

description, are required in reply to the Office action to avoid abandonment of the application.

Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

#### *Specification*

4. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

#### *Claim Objections*

5. Claims 9 and 16 are objected to because of the following informalities.

On line 1 of claim 9, "1" should be changed to "7" since "the spherical toner" as claimed on line 2 of claim 9 does not have antecedent basis in claim 1, but claim 7 provides antecedent basis for "the spherical toner".

On line 1 of claim 16, "13" should be changed to "15" since "the spherical toner" as claimed on line 2 of claim 16 does not have antecedent basis in claim 13, but claim 15 provides antecedent basis for "the spherical toner".

6. Appropriate correction is required.

Art Unit: 2852

7. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Allowable Subject Matter***

8. Claims 1-16 are allowed.

9. The following is an examiner's statement of reasons for allowance.

The primary reason for allowance is a number of toner particles remaining on the surface of the claimed image holding member before passing through an abutting portion between the claimed image holding member and the claimed contact-type charger is in a range of 100 to 400 per mm<sup>2</sup>. The above limitation is contained in all of the claims, but are not taught or suggested by the prior art.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Prior Art***

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Asano et al. (US 5,241,342), Kukimoto et al. (US 5,915,150), Ito et al. (US 5,970,285), Takeda et al. (US 6,215,967), Bessho et al. (US 6,449,448), Sakaizawa et al. (US 6,560,426) and Takami et al. (US 6,600,887) disclose a contact charging member for charging an image holding member.
